Year 5 Visit to the Thinktank

A report by Tomas Crean - Year 5

On Floor O there were all different types of machinery, including the world's fastest car. It could go 394mph! Also there were coins and some old jewellery. There were two robots making an 'S' type Jaguar. On Level 1 me and Reece paired up and made an animation. We learned about how optical illusions are made. In 'the Thinktank goes Wild' we saw a lot of stuffed animals, including many different types of birds.

Level 3 was The Street. It was really good fun. There was a crane that you controlled and you could pick up balls. It was one of the best parts of the visit. In the Imax cinema it was great fun. We watched a 3D film about Space. It told us about how they made the International Space Centre. The 3D effects were great.
